

We can't wait to share our new vision and new building with you and our community.

CAPITAL CAMPAIGN

Dear Friends,

Do you share our vision for greener, healthier communities; a place where people can live and work in harmony with nature?

We hope so, and we invite you to join us in creating a vibrant destination for our community by participating in the Delaware Center for Horticulture's "Growing Greener" Campaign. This \$3.5 million campaign will provide funding to transform our Trolley Square headquarters into a sustainable, green community centerpiece that will support TheDCH's growing programs well into the 21st century throughout the state of Delaware.

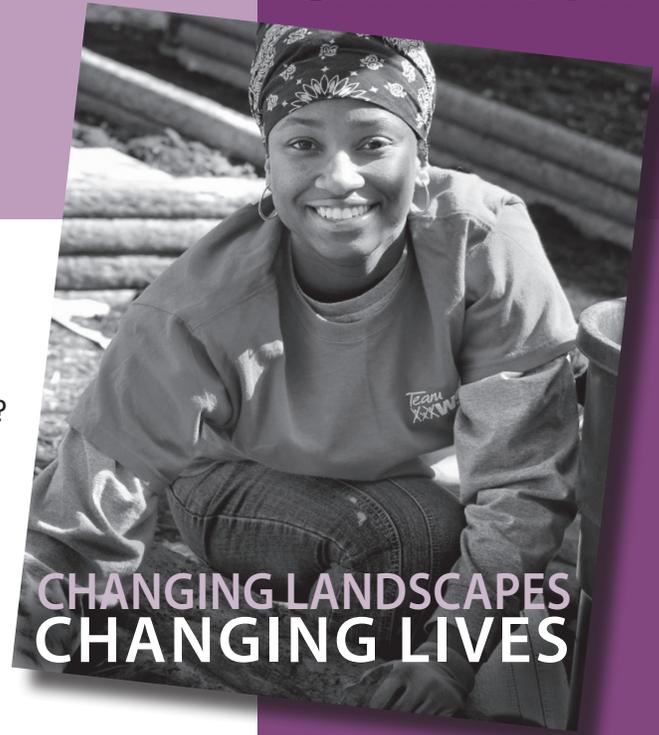

We promise you'll delight in our new "living" building, inspired by nature, enhanced by technology--built to bring the outside in and the inside out. Our building will be a place where:

- 🌱 Teens are potting seedlings in a new **"dirty" classroom** that opens directly onto a beautifully planted courtyard.
- 🌱 In our updated **resource center**, ex-offenders in our Return-to-Work job skills training program are preparing spring containers for Wilmington streetscaping projects, and learning valuable "green" job skills.
- 🌱 City and community representatives are touring our **green roofs** and learning about green infrastructure projects to double Wilmington's urban tree canopy and improve stormwater management around the region.
- 🌱 In our **expanded work spaces**, volunteers are finalizing plans for raised beds for community gardens and urban farms annually serving more than 1,500 Wilmington residents.

We can't wait to share our new vision and new building with you and our community. Thank you in advance for your support and partnership.
