EVENTS ADVISORY

Friday, March 3

Wilmington Art Loop Opening at TheDCH

5:30 – 8 p.m., 1810 North Dupont Street, Wilmington

Free and open to the public

Still Nature by Frank DePietro is inspired by close observations of the natural world and encounters with still moments that give us pause. The paintings display a quiet, meditative quality, contemplating our connection with nature and changing notions of what nature is. The ephemeral qualities of organic life are captured in time on canvas. Light refreshments and wine will be served.

Wednesday, March 15

Evening Lecture and Book Signing with

Acclaimed Author Florence Williams

6:30 – 8 p.m., 1810 North Dupont Street, Wilmington

Free and open to the public

Sponsored by Delaware Wild Lands, Inc., TheDCH, and Brandywine Zoo, join us for an evening lecture with award-winning author and science journalist Florence Williams on her visit to Delaware to speak and discuss the topics in her latest book, *THE NATURE FIX: Why Nature Makes Us Happier, Healthier, and More Creative*. Williams will take the audience along her global journey to answer the questions posed by inventive science that seeks to plumb what it is about mountain air, clouds and wind, and glittering sunlight that echoes so deeply through the human consciousness. Williams' presentation will be followed by a reception and book signing. Refreshments will be served.

NOTE: For additional media information, please contact Catherine Kempista at 302-388-5597 or via email at ckempista@thedch.org.

The Delaware Center for Horticulture cultivates a greener community; inspiring appreciation and improvement of our environment through horticulture, education and conservation.
